DECORATIVE PANEL SYSTEMS

PLEASANT & PRACTICAL

A new era in exterior and interior facades with VINYL BOND™ Decorative Panels developed based on the vast R&D and production experience in building materials.

VINYL BOND™ Decorative Panel Systems are designed for use in both interior and exterior spaces. With VINYL BOND™, you can design stylish ceilings, pleasant walls and eye-catching facades that are quite easy to apply and maintain, without making concessions on your comfort and style.

DURABLE
&
HIGH
QUALITY

The new generation facade, ceiling and wall decorative panel system VINYL BOND™ is extremely resistant to water, surface abrasions, impacts and harmful sun rays. The surfaces of the panels are covered with a high-tech decorative film layer.

RIBBON

EXTERIOR & INTERIOR
LINEAR • 150 x 26 MM

RIBBON Offers a special texture that adds depth and meaning to surfaces. With the meaningful color options specifically designed for modern and pleasant spaces; it also allows for magnificent plays of light on all surfaces in both interior and exterior spaces, on the walls or ceilings where it is applied.

RIBBON • Interior Magic Sahara

FINE

EXTERIOR & INTERIOR LINEAR • 125 x 26 MM

FINE is the first choice of those who love elegant textures... An alternative that captivates all surfaces with its robust structure, elegant size and pleasant depth. FINE, which has the thinnest intermittent surface coating design option, is particularly ideal for adding elegance to surfaces.

FINE • Interior Magic Vison

ADO

LOG

EXTERIOR & INTERIOR LINEAR • 125 x 26 MM

LOG is a special classic among the VINYL BOND™ design options, which is integrated with nature as one of the most durable facade coating options in terms of natural conditions... You can use it safely and with pleasure in all climatic conditions thanks to its design options which are inspired by the natural facades of log houses and which cannot be distinguished from natural materials externally.

LOG • Exterior Cream

BEVEL 26

EXTERIOR

LINEAR • 125 x 26 MM

BEVEL 26 The next-generation exterior cladding, BEVEL, reinforced with technological components, enhances the traditional "Brink Print". Unmatched in external facades, this product from VINYL BOND™ endures all kinds of weather conditions for years, liberating from maintenance hassle and expense. BEVEL, an unparalleled option for all living spaces, not only provides superior sound and thermal insulation but also adds a modern style and elegance to spaces with its noble stance.

BEVEL • Exterior White

MAXI

EXTERIOR & INTERIOR LINEAR • 165 x 18 MM

MAXI offers more planar surface with its large surface area and narrow gaps. Thanks to its attractive color options, it allows for compact and symmetrical textured design on all interior and exterior surfaces. With the special film coating on the panels produced for exterior applications, 10-year vivid color guarantee is also provided on the surfaces in the areas that are continuously exposed to sunlight.

MAXI • Interior White

MULTILINE

INTERIOR

LINEAR • 150 x 18 MM

MULTILINE A design from VINYL BOND™ that will change the perspective of spaces: MULTILINE. With its enduring structure that defies the years and aesthetic stance, MULTILINE is a perfect choice for interior surfaces! MULTILINE, with its special texture offering a natural look and warm color options appealing to every taste, will be the indispensable choice for those who want to create modern and aesthetic spaces.

MULTILINE • Interior Magic Sahara

ADO

BARCODE

EXTERIOR & INTERIOR

LINEAR • 125 x 18 MM

BARCODE is a special design that defies the conventional applications with its two different size surfaces side by side. The discrete surface dimensions are balanced with the same width interspaces to provide an unusual but planar surface. It is quick to be noticed and makes a difference in all areas where it is used with different color options for interior and exterior spaces...

BARCODE • Interior Magic Stone

LINE

INTERIOR

LINEAR • 114 x 18 MM

LINE A special product for those who want to make a difference in interior spaces; LINE. LINE adds value to the space it is in and elevates the perception of quality. Like all VINYL BOND™ products, LINE, easily mountable, dazzles with natural textures that fill the atmosphere of the space with positive energy, and offers attractive tones of nature. LINE is a perfect choice for spaces with its heat and sound insulation, non-moisture-absorbing, and antibacterial technology.

LINE • Interior Magic Vision

SOLID

EXTERIOR & INTERIOR LINEAR • 105 x 18 MM

SOLID With its compact appearance, it offers durability and elegance in all aspects to all surfaces where it is applied. This design, which is highly chosen particularly for exterior spaces, adds pleasure to all surfaces applied with its modern color options. VINYL BOND™ products, which are applied with minimum waste and virtually silent and time saving installation and quite fast to apply, are the number one choice of those who seek perfection on surfaces such as walls or ceilings!

SOLID • Interior Sand Gray

BEVEL 18

INTERIOR

LINEAR • 100 x 18 mm.

BEVEL which offers a design as modern adaptation of an elegant tradition, is also known as “Weather Boarding” used for many years, particularly on exterior surfaces. You can enjoy all the elegance and nobility of this method, where the facades are traditionally covered with solid wood paneling as opposed to Vinylbond Vivid colour guarantee, ease of maintenance and No DECAY!

EASY ASSEMBLY

APPLICATIONS

In outdoor applications, iron profiles with dimensions of 20 mm x 40 mm are fixed to the wall at 50 cm intervals to create a framework. (In indoor applications, a 20 mm x 40 mm wooden profile can be used.) Align the starting profile with the application surface and screw it into each framework with a smart screw. After attaching decorative panels one by one into the channels with smart screws, cover the surface by placing and locking the next panel. When you reach the end of the surface, install the finishing profile by screwing or preferably gluing it to complete the process.

Note: In outdoor applications, as the floor levels increase, the dimensions and thicknesses of the lower framework profile may vary. Ado is not responsible for any problems arising from application dimensions and modifications made outside of installation applications.
